DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1, 3-8, and 100 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, “the at least one printed circuit board” in the last two lines lacks antecedent basis; at least one electrode should extend from at least one of the plurality of printed circuit boards. Claim 7 – “the at least one PCB” lacks antecedent basis; the claim should relate to the plurality of PCBs set forth in claim 1.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 9-12, 102-104, and 106 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hofman (6,120,493). Applicant’s attention is directed to Figures 10-12 and column 9, line 59+ and column 10, line 51+.

Allowable Subject Matter

Claims 1, 3, 5-8, and 100 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

Claims 101 and 105 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Inventorship

In view of the papers filed December 31, 2003, the inventorship in this nonprovisional application has been changed by the deletion of Yael Agi Glickman and Orna Filo as inventors.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of the file jacket and PTO PALM data to reflect the inventorship as corrected.
